Evan Julian

Frontend Developer with UI/UX Focus | Building User-Centered Web
Experiences
Kota Tangerang Selatan, Banten, Indonesia

Summary

A dedicated Information System student at Universitas Multimedia
Nusantara, expected to graduate in June 2026, with a strong
focus on user interface design, front-end development, and user
experience. Most recently worked as a Frontend Developer at
HiEvents.co, where they contributed to creating responsive, user-
focused web interfaces that enhanced engagement and client
satisfaction.

Skilled in leveraging modern web technologies like HTML and CSS
to optimize performance and accessibility. Passionate about crafting
intuitive digital experiences through collaboration and user research.
Committed to advancing expertise in UI/UX design and contributing
to impactful projects in the tech and design industries.

_____

Experience

HiEvents.co
10 months

Frontend Developer
January 2025 - July 2025 (7 months)
Jakarta, Indonesia

I successfully designed and developed user-friendly interfaces that elevated
client projects and user experiences.

• Enhanced overall usability and interactivity, resulting in improved user
engagement metrics.
• Delivered timely updates and improvements that consistently met or
exceeded client objectives.
• Developed skills in responsive design, performance optimization, and client
collaboration within a startup environment.

User Interface Designer
October 2024 - January 2025 (4 months)

I excelled in creating impactful user interfaces that transformed event experiences and met client goals.

• Engaged in close collaboration with clients to ensure their visions were realized in the designs.
• Prioritized user experience, leading to increased participant engagement and satisfaction.
• Contributed to the successful redesign of websites, enhancing overall event atmospheres and client outcomes.

Kawan study
User Interface Designer
September 2024 - July 2025 (11 months)
Jakarta, Indonesia

I played a pivotal role in designing user-centric interfaces at Kawan Study, significantly improving user engagement.

• Led end-to-end design processes, ensuring alignment with user needs and client expectations.
• Utilized Figma to create prototypes, facilitating seamless collaboration with cross-functional teams.
• Enhanced my expertise in UI/UX design and front-end development while consistently meeting project deadlines.
